**Training Needs Analysis  
(TNA) Course**

# OVERVIEW

Training is looked at as a cost by most of the organizations because there is no clear picture as to why there is a need for training, who needs to be trained, what needs to be addressed via training, what skills need to be developed, and how the success of training will be measured.

When not done right, this obscure picture impedes the success of an intervention thereby leading to a setback and disbelief in the efficiency of learning and development in driving change.

Successful organizations on the other hand clearly define the desired state (what does the goal look like), then assess the current state in terms of capabilities i.e.

Knowledge, Skills and Abilities (KSA's) and then look at the gap and arrive at a need to bridge the gap by undertaking the right approach, one of which could be training.

This process centered approach ensures that the training is not a checkbox activity or whims of someone in the management, but a calculated step taken to help the organization navigate and reach the desired state faster in an effective manner.

This training course will empower you in understanding the importance of right training need analysis, how to conduct one for expected outcomes, what questions to ask while arriving at a training need, templates/ format to use, who all to be involved in conducting TNA, reports & usage of TNA to curate a right training program for maximum impact.

Hal ini dapat membantu membangun hubungan yang baik, yang dapat menghasilkan lebih banyak pelanggan setia dan lebih banyak bisnis yang berulang.

Dengan aktive listening dapat menjaga hubungan baik dengan pelanggan dan membantu bisnis Anda mempertahankan pelanggan setia, menghasilkan lebih banyak uang, dan mendapatkan nama baik di pasar. Mendengarkan secara aktif adalah bagian penting dalam membangun hubungan baik dengan pelanggan.

Menurut Center for Creative Leadership, pemimpin yang andal dalam skill active listening cenderung mudah mendapat kepercayaan dan hormat dari bawahannya. Oleh sebab itu, keterampilan mendengar aktif patut Anda kembangkan demi menunjang rutinitas di lingkungan kerja dalam memberikan layanan yang baik kepada pelanggan

Pelanggan cenderung nyaman berbicara dengan orang yang memang mendengarkan cerita mereka, ini termasuk kebutuhan dan masalah yang tengah dialami. Pendengar yang aktif terbiasa mendengarkan hingga tuntas dan memahami konteks pembicaraan. Barulah mengambil kesimpulan berdasarkan apa yang telah dipahami. Melalui kebiasaan ini, pelanggan jadi betah dan nyaman berbicara mengenai keluh kesah.
